## Ergophone CP 200/CP 210

### Analog patient telephones for hospitals

The multifunction devices offer excellent comfort at the bedside. Thanks to their ergonomic design, the phones lie perfectly in the hand and are very easy to use. With an inserted smart card the patient logs in and uses, depending on the offered services, radio, television and telephone.

The variant Ergophone CP 210 provides additional control for reading- and domelight and the nurse call function. The telephones are shock-proofed. The surfaces are easy to clean and conform to hygienic requirements in hospitals.

**Keypad can be customized.**

CP 210 with receptacle
